The mission of the Division of Undergraduate Education is to support strategic planning related to promoting undergraduate student learning and success through collaboration with academic and support units across IUPUI.
The Office of Communications supports units with most communication needs for student-focused materials, event and department websites, and overall communication strategies related to students. Direct services include design, content creation and editing, website development, and event/service communication related to undergraduate students.
The Office of Communications, Operations, External Affairs, and Human Resources seeks to cultivate enduring relationships among Division of Undergraduate Education staff, students, and faculty; initiate and develop partnerships with the Indiana community to aid IUPUI students; and enhance the division's image by communicating the innovations and programming of the various units to the university and community at large.
The Fiscal Affairs office is responsible for the oversight of all financial activities of the division and each area within the division; establishes appropriate internal control processes for the division; prepares financial reports as required; oversees the preparation of the division's annual budget; maintains knowledge of university fiscal policies and procedures; and reviews contract/grant budgets for compliance with federal, state, or agency guidelines.
Technology Services, Division Of Undergraduate Education

Technology Services manages all aspects of technology for the Division of Undergraduate Education, including developing new technology to promote academic excellence and enhance student persistence. It is the mission of Technology Services to provide expert technological support to the division by providing day-to-day support services; training for faculty, staff, and students; and seeking innovative uses of technology to deliver the message of the Division of Undergraduate Education.
CENTER FOR COORDINATED UNDERGRADUATE INITIATIVES

LIFE - HEALTH SCIENCES INTERNSHIP PROGRAM (LHSI)
The Life Health Sciences Internship Program connects IUPUI life and health sciences undergraduates with research and professional experience internships on and near the IUPUI campus. Participants are encouraged to explore career and academic goals and future career pathways while gaining valuable professional connections with faculty and staff in our graduate and professional programs. Internships run from the end of August to the beginning of May.

OFFICE OF CAMPUS CAREER AND ADVISING SERVICES
This office coordinates professional development opportunities for academic advisors and career services professionals across campus with a focus on integration of academic and career planning; coordinates implementation and use of technologies to support career and academic advising, particularly Symplicity and EAB SSC as well as IU’s AdRx and iGPS; develops and maintains websites related to the work of Career EDGE, the Career Services Council, and the Campus Advising Council, including an online advising handbook; coordinates and implements campus wide assessment of career services and academic advising through the collection of data; and works collaboratively with each academic school.

OFFICE OF STUDENT EMPLOYMENT
The Office of Student Employment is open to all current IUPUI students and provides assistance in areas such as a job and career resource database, job search/interview/resume strategies, networking, part-time student employment, and employer support for supervisors.

OFFICE OF TRANSFER STUDENT SERVICES
The Office of Transfer Student Services serves any student who has been admitted to IUPUI from another institution, regardless of major or academic level. Our goal is to foster an understanding and supportive transfer culture on the IUPUI campus and to encourage our transfer students through to graduation.

RESEARCH, INTERNATIONAL, SERVICE LEARNING, EXPERIENTIAL LEARNING (RISE)
The RISE to the IUPUI Challenge initiative engages students more deeply in their learning and contributes to their intellectual and professional development in unique ways. Each undergraduate student is challenged to include at least two of the four RISE experiences into his or her degree program. Each RISE category participated in will be documented on students’ transcripts.
The Degree Completion Office serves as a point of contact for all adult degree completers from inquiry through first weeks of the initial semester and beyond to provide the necessary support to its program’s participants and to enhance the effectiveness of retention efforts.
University College is the academic unit at IUPUI that provides a common gateway to the academic programs available to entering students. University College coordinates existing university resources and develops new initiatives to promote academic excellence and enhance student persistence. It provides a setting where faculty, staff, and students share in the responsibility for making IUPUI a supportive and challenging environment for learning. University College student mentors, faculty, and staff are committed to helping new students make the transition from high school to college by providing world-class support and service.

**FIRST YEAR PROGRAMS / BRIDGE**

Bridge is a summer program designed to prepare entering students to be successful at IUPUI. Students become prepared to engage with college rigors and the campus through connections to their school or major; connections with faculty, advisors, student mentors, and librarians; learning their way around campus; using campus technology; getting a preview of what will be covered in their fall classes; discussion of time and stress management; and receiving early support in math, writing, and communication studies.

**THEMED LEARNING COMMUNITIES**

A Themed Learning Community (TLC) is a group of three-to-five classes, including a first-year seminar, connected by a theme in which students co-enroll. TLCs engage students, faculty, advisors, librarians, and others in a community of learners that explore interdisciplinary connections both in and out of the classroom. TLC faculty work together to coordinate their classes through active and collaborative learning, co-curricular activities, service learning, and reflective assignments.

**GATEWAY TO GRADUATION**

Gateway to Graduation is a faculty-led effort to improve student learning and retention in courses with high enrollments of first-year students. Most Gateway courses help satisfy the general education requirements of undergraduate degrees. Over fifty-four courses have been identified to participate in the Gateway program. The Gateway Program has been given a national award, the Hesburgh Certificate of Excellence, for its success as an innovative faculty development program that enhances undergraduate teaching and learning.

**SPECIAL PROGRAMS FOR ACADEMIC NURTURING (SPAN)**

Special Programs for Academic Nurturing (SPAN) was established at IUPUI in 1984 to help academically motivated students take college classes. While this program is aimed at high school students, younger students have qualified and excelled in this program as well. SPAN offers many opportunities that can be configured many ways so qualified students can design a program at IUPUI to fit their needs. The SPAN early college experience has three programs available for high school students to take college courses: the Running Start Program, the UpperClass Program, and the CyberTEENs Program.

**ACADEMIC AND CAREER DEVELOPMENT**

Academic and Career Development offers a team of student success advisors and career consultants to help with major and career exploration as well as the creation of a plan to achieve academic and personal goals.

**STUDENTS TAKING ACADEMIC RESPONSIBILITY (STAR)**

Students Taking Academic Responsibility (STAR) is a free mentoring program aimed at helping University College students, who are on first-time academic probation or currently reinstated for the upcoming semester, reach their academic potential at IUPUI. Students who sign up for the program learn new academic skills.

**HEALTH AND LIFE SCIENCES ADVISING CENTER**

As Indiana’s urban research and academic health sciences campus, IUPUI plays a significant role in preparing educated citizens to work in the health and life sciences. Rapid growth in the health sciences in central Indiana coupled with the necessity of interdisciplinary study make accurate and informed preparation to enter these fields an important goal for IUPUI students. Providing focused and consistent guidance to interested students from the freshman year through acceptance into their chosen health and life science programs is the main objective of the center.

**ACADEMIC SUPPORT PROGRAMS**

**BEPKO LEARNING CENTER**

The Bepko Learning Center is named after Gerald L. Bepko, chancellor of Indiana University Purdue University Indianapolis (IUPUI) from 1986 – 2002, during which time he also served as vice president for long-range planning for IU. The Bepko Learning Center works to help undergraduate students achieve educational goals and to assist in their development of academic skills through the guidance of successful student peers. The Bepko Learning Center houses three offices: the Office of Academic Mentoring, the Office of Tutorial Support, and the Office of Academic Enrichment.

**DIVERSITY ENRICHMENT AND ACHIEVEMENT PROGRAM (DEAP)**

The Diversity Enrichment and Achievement Program (DEAP) is a University College program designed to assist under-represented students at IUPUI in pursuing and obtaining their college degrees by addressing personal, academic, and social experiences that have an impact on student success. DEAP seeks to positively impact the personal development, retention, and graduation of under-represented students at IUPUI.

**CENTURY SCHOLARS SUCCESS PROGRAM**

The Nina Mason Pulliam Legacy Scholars Program provides a unique opportunity to students from disadvantaged backgrounds in which they can obtain the resources and financial support needed in order to successfully complete their college education. The Nina Scholars program provides each student with an academic advisor/mentor, a student mentor, and variable financial support. The Nina Scholars program is highly focused in all aspects on the success of its student participants.

**SCHOLAR SUPPORT SERVICES**

**21st CENTURY SCHOLARS SUCCESS PROGRAM**

The 21st Century Scholars Success Program aims to ensure that all Indiana families can afford college education for their children. The 21st Century Scholars Success Program provides support programs and services, access to campus and community resources, and social and academic activities to 21st Century Scholars students at IUPUI.

**MATHEMATICS ASSISTANCE CENTER (MAC)**

An open access, academic space dedicated, through peer-to-peer tutoring and mentoring, to extending or reinforcing the mathematical learning of undergraduate students enrolled in mathematics courses at IUPUI. The MAC and MAC Stat are each open 60+ hours during the week, including 10 hours of weekend support and 40+ hours of online tutoring.
