

Tentative

Urban & Industrial Pest Control
College of Agriculture – Purdue West Lafayette

The urban and industrial pest control option blends science and business for students interested in urban pest management. The Department of Entomology plan of study is flexible enough to prepare you for graduate school, or it can prepare you for employment in the urban and industrial pest management industry; food processing and chemical industries; federal, state, or local public health agencies; or lawn and garden companies.

IUPUI	Purdue
UCOL U110 or another LC (1)	AGR 10100
ENG W131 (3)	ENGL 10600
ENG W132, 231, or 200+ level course (3)	Written or oral communications elective
COMM R110 (3)	COM 11400
COMM 200+ level elective (3)	Written or oral communications elective
CHEM C105/C125 (5)	Chemistry Elective
CHEM C106/C126 (5)	Chemistry elective
STAT 30100 (3)	Statistics Elective
MATH 16500 (4)	Calculus Elective
MICR J210 (4)	BIOL 22100
ECON E201 or E202 (3)	Economics Elective
CHEM C341/C343 (5)	Organic Chemistry elective
OLS 33100 (3)	OLS 33100
BIOL K101 (5)	Biology Core Elective
BUS A200 or A100-201 (3-4)	Business Elective (9)
BUS K201, L203, W200, or P200 (3)	
Social Science elective (3)*	Social Science elective (3)*
Humanities elective (6)*	Humanities elective (6)*
Total Credit Hours: 65-66	

***Electives:**

Humanities – Foreign language (at least 6 credits), visual and performing arts, band (at least 3 credits), English Literature (200+ level), History, Philosophy

Social Sciences – Anthropology, Sociology, Political Science, Psychology

Note – there is no College of Agriculture at IUPUI. IUPUI University College and the Purdue College of Agriculture have entered into a partnership which allows students to start their coursework at IUPUI and then transfer to Purdue to complete their coursework. Depending on the intended degree program, students will have between 2-3 years of coursework left at Purdue West Lafayette if they transfer into the degree program they started with at IUPUI. Depending on math and chemistry placement, students could spend 1-2+ years completing courses before needing to transfer.

Applying to Purdue – students will need to submit an official undergraduate application for admission to Purdue and provide official transcripts. The earlier a student applies for the following year, the better. Students should also alert the IUPUI-Purdue Agriculture liaison of their intention to transfer to help expedite the process and alert the College of Agriculture of your pending application. Students must take responsibility to know the application deadlines and admission requirements – www.purdue.edu/admissions/undergrad

IUPUI College of Agriculture liaison – Kyle McCool, kyhunt@iupui.edu, (317) 278-8631, <http://purdueag.uc.iupui.edu/>
